IFRA / EU Certificate

This certificate cancels and replaces all preceding certificates for this product.

BERGAMOTE 000136 000136

I. IFRA

This certificate provides information on the compliance of the above mentioned fragrance oil according to the latest fragrance safety Standards of the International Fragrance Association (IFRA).

1. Maximum permitted concentration in the final product (% w/w)

For each class of final product, quantitative limits are indicated (if any apply). These result from the presence of substances listed in section 2.2. These limits may not be valid if our fragrance oil is used in conjunction with other materials that also contain these restricted substances. The total concentrations in the final product of all restricted substances should be taken into account when determining the maximum concentration permitted by IFRA.

<u>CLASS (See Appendix)</u>	<u>48th amendment</u>	<u>47th amendment</u>
1	Not Permitted	Not Permitted
2	8.08%	8.08%
3A	32.34%	32.34%
3B	32.34%	32.34%
3C	32.34%	32.34%
3D	32.34%	32.34%
4A	97.02%	97.02%
4B	97.02%	97.02%
4C	97.02%	97.02%
4D	97.02%	97.02%
5	48.51%	48.51%
6	Not Permitted	Not Permitted
7A	16.17%	16.17%
7B	16.17%	16.17%
8A	No Restriction	No Restriction
8B	No Restriction	No Restriction
9A	No Restriction	No Restriction
9B	No Restriction	No Restriction
9C	No Restriction	No Restriction
10A	No Restriction	No Restriction
10B	No Restriction	No Restriction
11	No Restriction	No Restriction

Please note that in some cases a fragrance oil can be banned only in classes 1 and 6 while it is limited or free of use in other classes. This is due to the presence of one or several ingredients that are not Generally Recognized As Safe (GRAS). These will not be indicated in section 2.1

2. Ingredients that are banned or limited by IFRA

Firmenich

IFRA / EU Certificate

This certificate cancels and replaces all preceding certificates for this product.

Section 2.1 lists ingredients that are banned by IFRA either because they are banned outright or because they contain constituent substances (components of natural complex materials or impurities in synthetic fragrance materials) that exceed purity limits set by IFRA.

Section 2.2 lists ingredients or substances that are restricted by IFRA. In cases where section 2.1 indicates that the fragrance oil is banned by IFRA, we are still providing information on ingredients and substances that are subject only to quantitative limits as these may determine the limits of compliance once the banned ingredient has been removed.

For further information on the IFRA standards relating to these ingredients, they can be found on www.ifraorg.org or by request from us.

2.1. Ingredients banned by IFRA

NONE

2.2. Ingredients and substances subject to limitations by IFRA

<u>Name</u>	<u>CAS #</u>	<u>QTY in the fragrance oil</u>	<u>Amendment</u>
BENZYL ALCOHOL	100-51-6	0.0002 %	42
BENZYL BENZOATE	120-51-4	0.0001 %	42
BENZYL SALICYLATE	118-58-1	0.0001 %	42
CITRAL	5392-40-5	0.6184 %	47
CITRONELLOL	106-22-9	0.0556 %	42
COUMARIN	91-64-5	0.0002 %	43
ESTRAGOLE	140-67-0	0.0003 %	48
GERANIOL	106-24-1	0.0713 %	42
HEXEN-2-AL	6728-26-3	0.0004 %	43

3. Substances, which may have some potential to form nitrosamines in the presence of nitrosating systems

NONE

II. REGULATION (EC) No 1223/2009 ON COSMETIC PRODUCTS

The above mentioned fragrance complies to the Regulation (EC) No 1223/2009 on Cosmetic Products (as amended) for use up to the following levels of incorporation in the final product.

Firmenich

IFRA / EU Certificate

This certificate cancels and replaces all preceding certificates for this product.
