### I. IFRA

This certificate provides information on the compliance of the above mentioned fragrance oil according to the Standards of the International Fragrance Association (IFRA), up to and including the 49th Amendment (published January 2020). This fragrance mixture may also contain ingredient(s) that have been evaluated in accordance with the IFRA Guidance on Safety Evaluation of Fragrance Materials.

## 1. Maximum permitted concentration in the final product

These limits may not be valid if our fragrance oil is used in conjunction with other materials that also contain these restricted substances. The total concentrations in the final product of all restricted substances should be taken into account when determining the maximum concentration permitted by IFRA.
